

Mutual leadership

adapting to a complex world

An interactive online ICMIF course for
existing and emerging leaders from mutual or cooperative insurers

Learn essential **frameworks, mental models**
& **tools** that ICMIF members praise for
transforming **agility** in **complex** situations

Peer to peer **personalisation**
of learning and **collaboration**
will translate **insights** into **near-term value**

Be part of a **global network** of peers
who develop **long-term mutual**
support and **collaboration**

Limited time offer: One free place per ICMIF member organisation for courses in 2020

ICMIF members also enjoy a discounted fee of GBP 600 for each subsequent participant in 2020.

Advance notice: from 1 January 2021 the fee for this course will revert to the standard price of GBP 1,000 per participant

Register now

Seven twice-weekly two-hour sessions* 6 to 27 October 2020

Orange group (9.00 – 11.00 BST): [register here](#)

Blue group (14.00 – 16.00 BST): [register here](#)

icmif

*Two concurrent courses will run on Tuesdays and Thursdays during these dates with different times to accommodate different time zones

This is for you if you are ...

Increasingly leading others (formally or informally)

Increasingly tackling complex problems

Increasingly collaborating across cultures

Participants will include a mix of technical insurance and non-technical people, reflecting the typical make-up of a mutual/cooperative insurer.

Participants must be comfortable holding conversations in English

“The learning journey has been an amazing one, the way the course was structured, the communication, the collaboration and networking opportunities you created for us. You apply all the principles that you are teaching us throughout the course, which is really good because you are embedding the knowledge while teaching us the theory.”

African participant, June 2020 course

Course details

Where Online

When Twice-weekly (Tuesdays and Thursday) from 6 to 27 October inclusive

Two concurrent courses will run during these dates with different times to accommodate ICMIF members in different time zones

Orange group: 09.00 - 11.00 British Summer Time (BST*)

Blue group: 14.00 - 16.00 British Summer Time (BST*)

Participants will typically be expected to stay in their chosen group for the duration of the course

Duration The duration of each course is around 18 hours, with seven two-hour sessions and approximately four additional hours for preparation and review time

A typical week would comprise:

2 hours of live lectures

2 hours of interactive peer to peer discussions

1 hour of preparation and personal reflection

Fee **Limited time offer: One free place per ICMIF member organisation for courses in 2020.** ICMIF members also enjoy a discounted fee of GBP 600 for each subsequent participant in 2020. Advance notice: from 1 January 2021 the fee for this course will revert to the standard price of GBP 1,000 per participant

Mutual leadership: adapting to a complex world course

October 2020

Seven twice-weekly two-hour online sessions: 6-27 October 2020

An online blend of live, high-level presentations and interactive discussions with peers from other mutual/cooperative insurers around the globe

Fee

- One free place in 2020 per member organisation
- Discounted fee of GBP 600 for subsequent places in 2020
- Fee reverts to GBP 1,000 per participant in 2021

Register now

Orange group (9.00 – 11.00 BST): [register here](#)
Blue group (14.00 – 16.00 BST): [register here](#)

Explore near-term challenges with peers from different contexts

Acquire essential frameworks and tools for thriving in a complex world

Embracing complexity

Judging & deciding

Effective collaboration

Healthy challenge & thinking strategically

Working across cultures

Preparing for action

Develop a global network of peers for long-term mutual support

This course is for you if you are increasingly:

- ✓ Leading others (formally or informally)
- ✓ Tackling complex situations
- ✓ Collaborating across cultures

Your commitment

- ✓ A total commitment of 18 hours over three weeks
- ✓ Six interactive two-hour sessions
- ✓ Plus a dedicated networking session
Approximately 30 minutes pre-work per session

How you will benefit

Here's what you'll learn

The essential **frameworks, mental models** & **tools** that ICMIF members praise for transforming **agility** in **complex** situations

Learn how to overcome the key challenge

“When we think we think less than we think we think”

Daniel Kahneman, Nobel Prize Winner 2002

The **learning** delivers what CEOs seek

“We are in direct competition with global players, but do not have access to global knowledge”

European CEO, ICMIF Conference 2019

Here's how your learning will deliver value

Peer to peer **personalisation** of learning and **collaboration** to translate **insights** into **near-term value**

Explore how to overcome the key challenge

“The most common leadership failure stems from applying technical solutions to adaptive challenges”

Prof. Ronald Heifetz, Harvard

The **exploration** delivers what CEOs seek

“The problems are universal. The solutions are specific and context dependent”

Americas CEO, ICMIF Conference 2019

Here's how you'll build a global network

You will be part of a **group** of peers who develop **long-term mutual support** and **collaboration**

Network how to overcome the key challenge

“The way we see the world seems so obvious it is difficult to imagine others might do things differently”

Prof. Erin Meyer, The Culture Map

The **networking** delivers what CEOs seek

“Mutual insurers are changing from closed systems to open systems”

Asia Pacific CEO, ICMIF Conference 2019

How previous participants benefited immediately

Here's what you'll learn

The essential **frameworks, mental models** & **tools** that ICMIF members praise for transforming **agility** in **complex** situations

"The course is about gaining more awareness of self and others, understanding decision-making and being able to lead better in complex situations."

African participant, June 2020 course

"The pre- and post-event materials were of excellent quality. I really loved the content and the delivery. The energy of the facilitator really came through."

European participant, June 2020 course

Here's how your learning will deliver value

Peer to peer **personalisation** of learning and **collaboration** to translate **insights** into **near-term value**

"What I found so great was I learned something which I could use straight away. Within days I was able to change the approach and get a better result."

European participant, June 2020 course

"I'm very happy with the experience. The course dynamics were very interesting and the tools I now have are very practical and easy to put into action."

South American participant, June 2020 course

Here's how you'll build a global network

You will be part of a **group** of peers who develop **long-term mutual support** and **collaboration**

"So much of the enrichment is making the connections and feeling like your problems are not unique, other people have encountered them and you can get help."

North American participant, June 2020 course

"Though we are from different parts of the world, the problems we are facing are not that different and there is great value in talking with each other."

African participant, June 2020 course

Schedule

“Having two sessions a week was so right. I felt more engrossed in the course as the next session was never far away.”

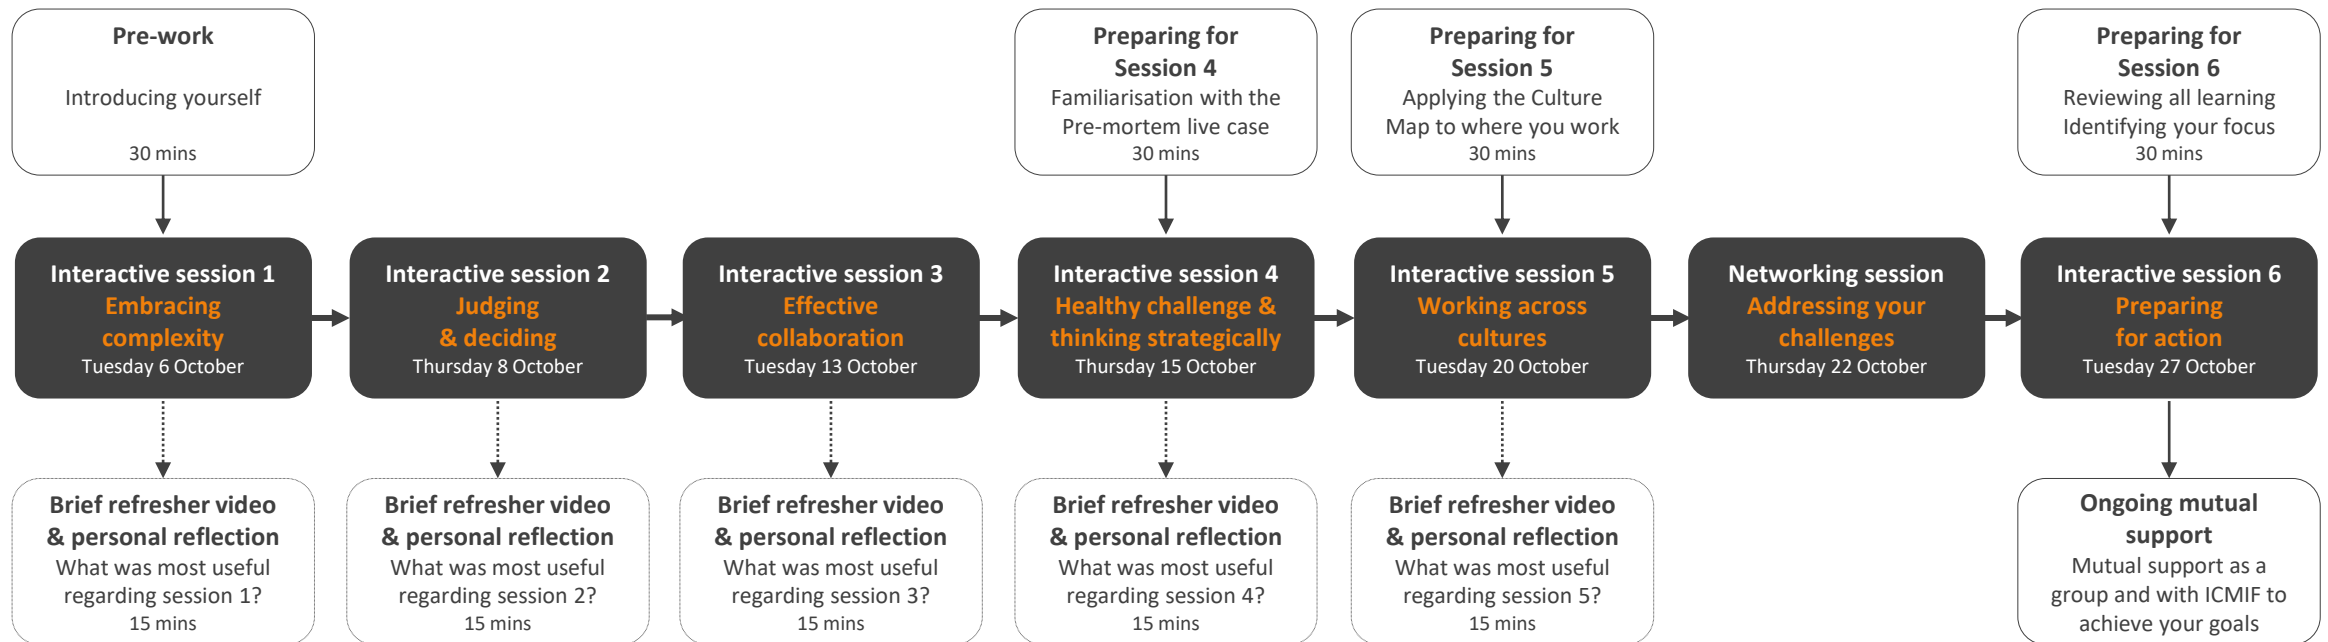

South American participant, June 2020 course

“I liked that the sessions were spaced out over three weeks, it gave me additional time to reflect on the content and helped me to see how elements of the course could be applied to real work situations.”

North American participant, June 2020 course

Seven twice-weekly two-hour interactive sessions with your group

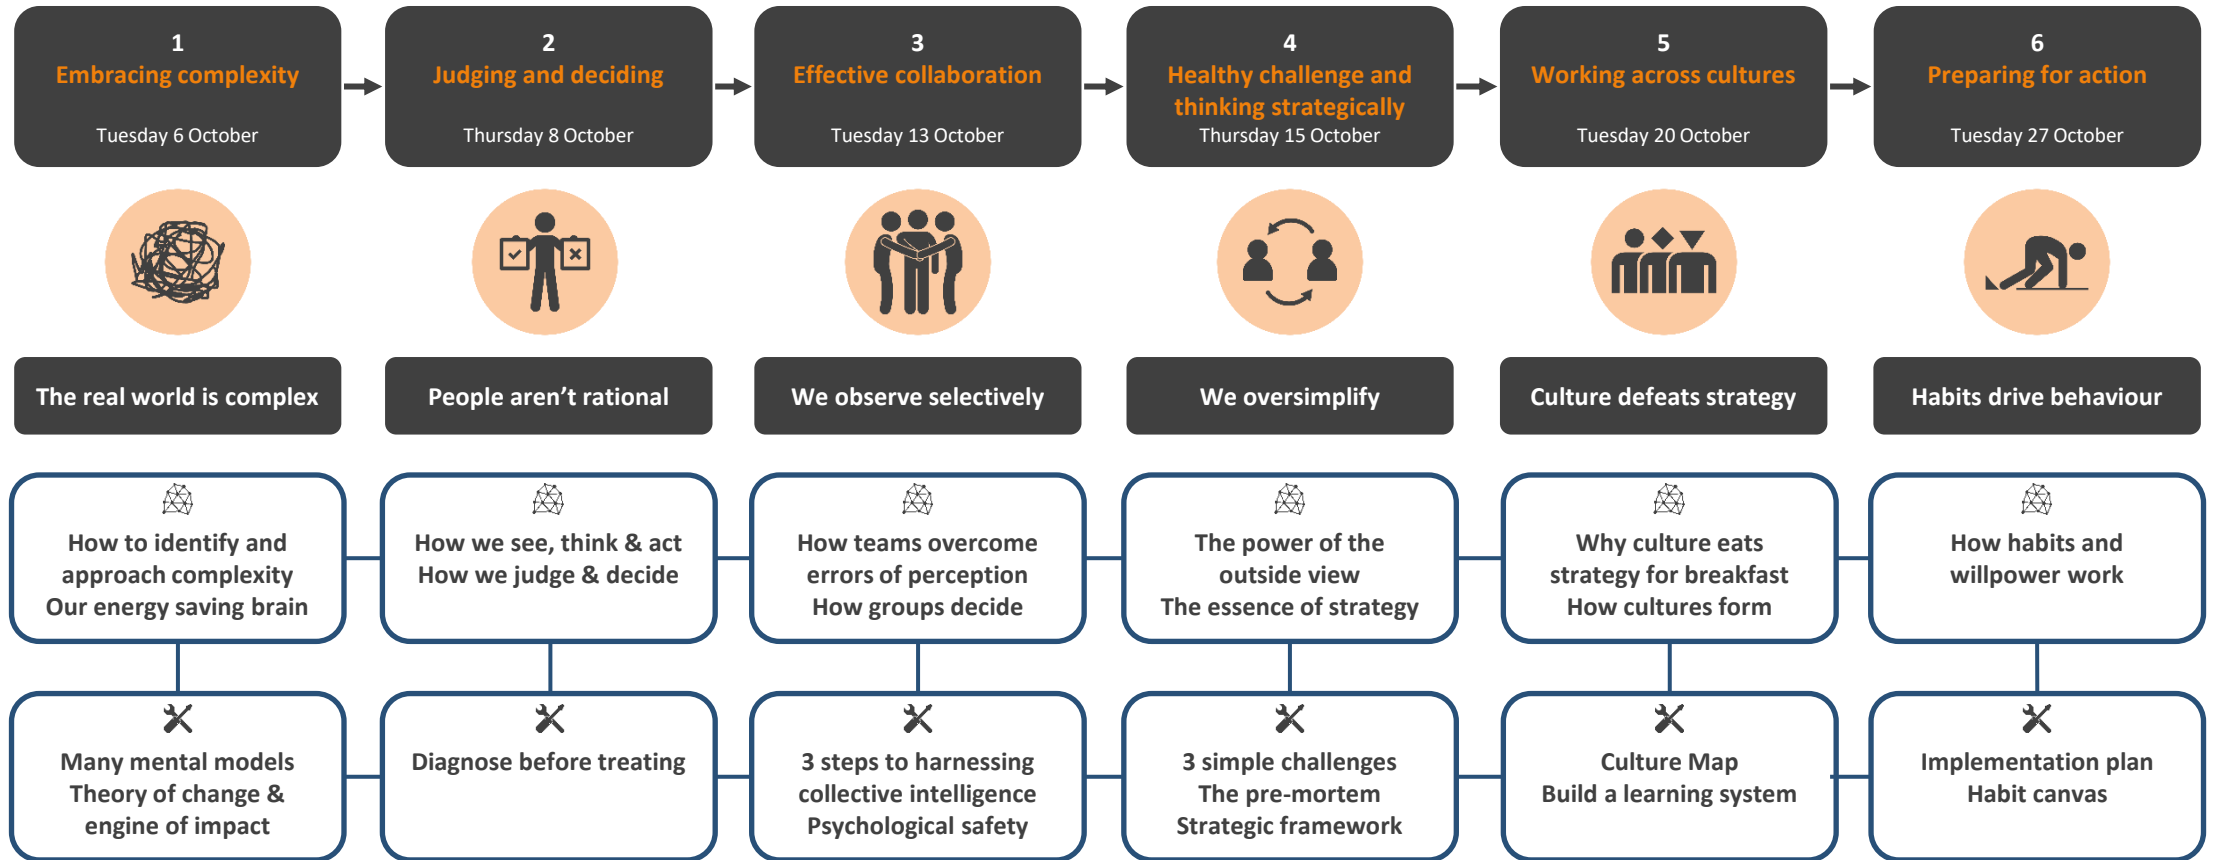

A total commitment of approximately eighteen hours

Session times
Orange group: 9.00 – 11.00 BST*

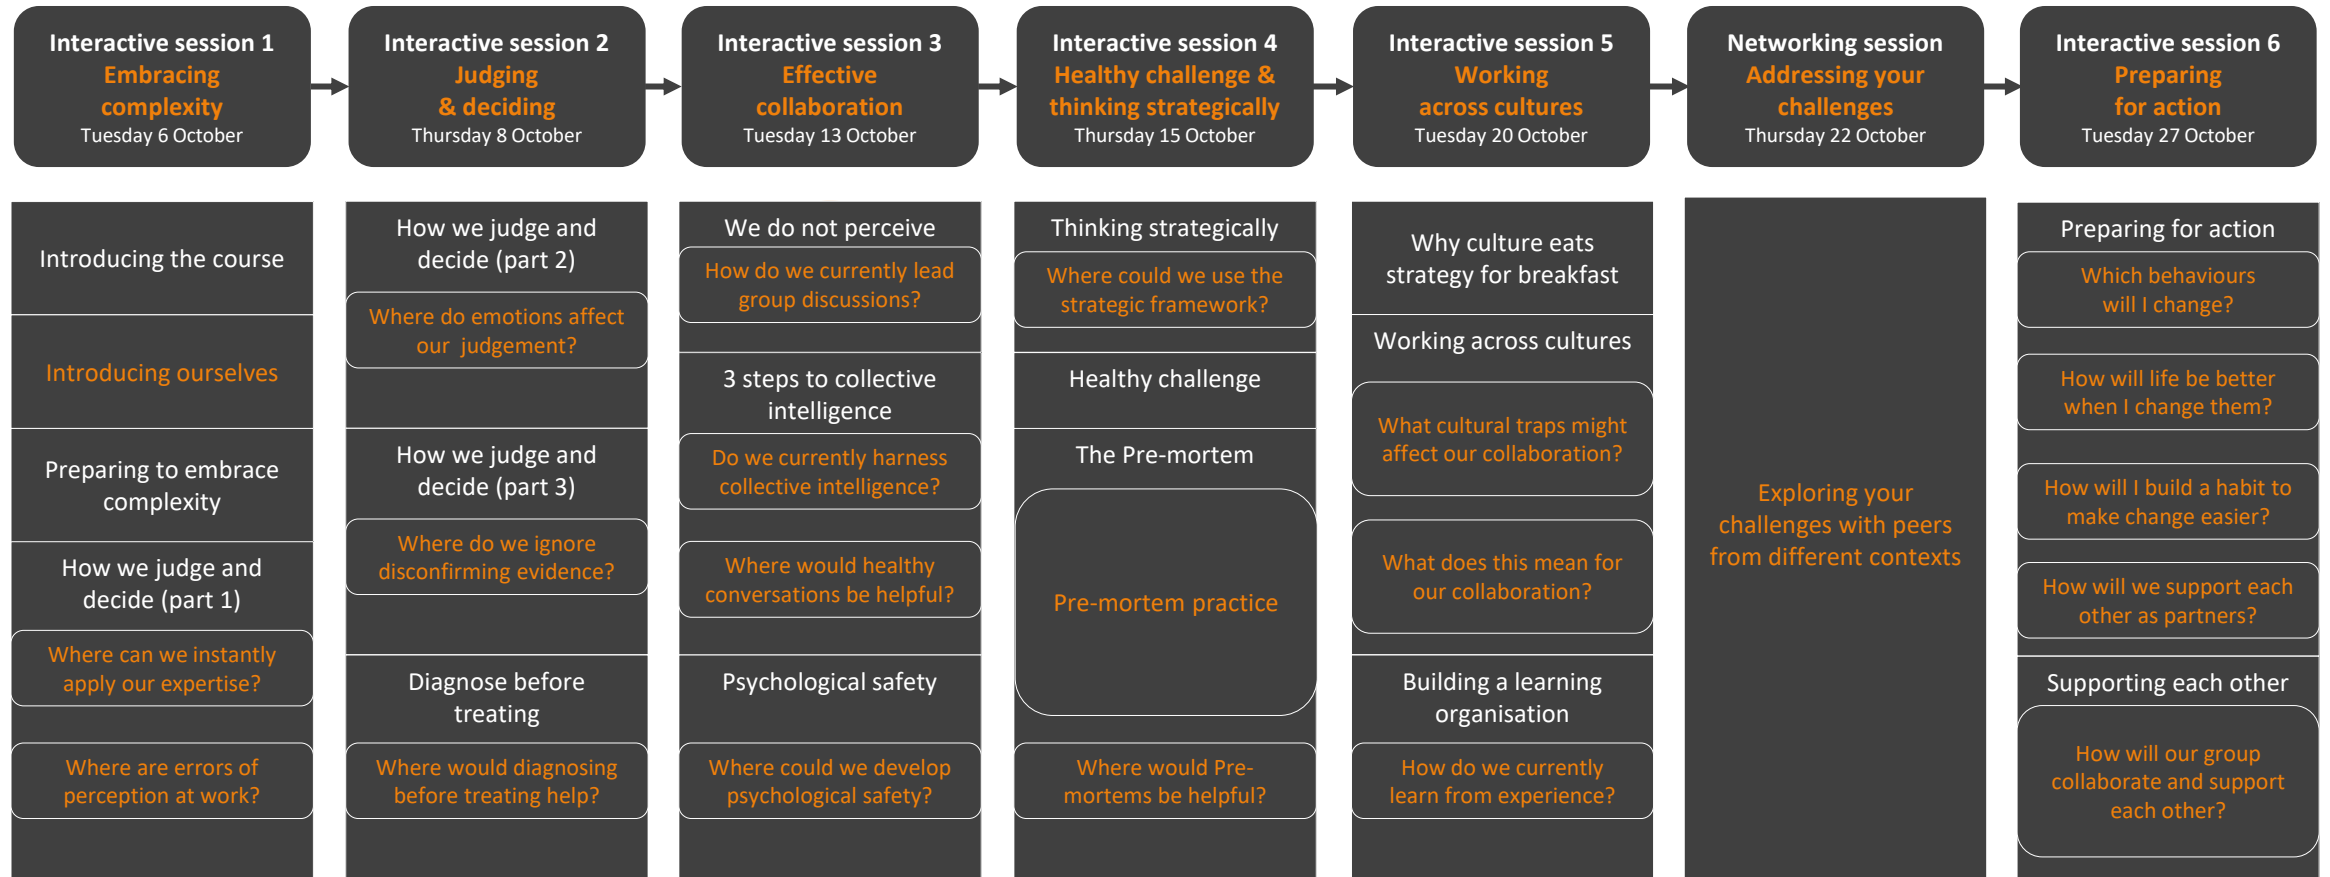

Session times
Blue group: 14.00 – 16.00 BST*

Learn the essential mental models and tools for mutual leadership in a complex world

How your time will be invested

A 50/50 blend of live online presentations and interactive discussion with your peers

1. Embracing complexity

Overcome the key challenge: **The real world is complex**

“The most common leadership failure stems from applying technical solutions to adaptive challenges”¹

Introducing ourselves

Help your fellow group members to help you

You will maximise the value you take from this course if your peers understand the challenges and opportunities you face. Preparing a very short, informal video will help you to mentally walk a mile in each other’s shoes. The relaxed “introducing ourselves” discussion will provide an opportunity to get to know each other.

Preparing to embrace complexity

How to identify and approach complexity

Technical challenges involve applying well-honed skills to well-defined problems whereas complex challenges are messy, open-ended and ill-defined. You will learn to look beyond methods that worked well when tackling technical problems earlier in a career to the different approaches that are effective in complex situations.

Many mental models

“We know more about the world, but it is more complex. Consequently, any single model is more likely to fail.”²
You will learn how combining many mental models makes it easier to apply logic to complex situations.

Theory of change & engine of impact

You will learn to mentally note your theory of change in each complex situation and hence what will deliver impact.

How we judge and decide – part 1

Our energy saving brain

You will learn how our brains have evolved to conserve energy. We will explore what this means for your expertise and how you perceive reality. You may discover your brain does not work quite the way you thought it did.

Where can we instantly apply our expertise?

During this discussion with your peers you will explore the ways in which you can each instantly apply expertise.

Where are errors of perception at work?

Having understood what drives errors of perception you will discuss where errors may occur where you work.

Brief refresher video & personal reflection

What was most useful regarding session 1?

15 mins

2. Judging & deciding

Overcome the key challenge: **People aren't rational**

"When we think we think less than we think we think"¹

How we judge and decide – part 2

How we see, think and act

In the first session you will explore how complex systems feature uncertainty. "Wherever there is uncertainty there has got to be judgment, and wherever there is judgment there is an opportunity for human fallibility."² You will acquire a three-step model of how we see, think and act that reveals, step by step, the sources of human error.

Where do our emotions affect our judgement?

While personalising the three-step model you will focus on the role that emotions play. This discussion provides an opportunity to explore with your peers where emotions may affect judgement and decision making where you work. In the process you may make visible universal challenges that are currently invisible to you.

How we judge and decide – part 3

How we judge and decide

"Nothing could be more practical or useful for a person's life than the thinking processes that help them find out what is true and what is best to do"⁴ This section covers how our energy saving brains snap, stick and use shortcut rules of thumb. You will complete the mental model of judgement, including how habit drives our behaviour.

Where do we ignore disconfirming evidence?

One of the subtle ways we save mental energy once we have made a decision is to look for all the reasons why we are right and filter out disconfirming evidence. In this discussion you will explore the implications with your group.

Diagnose before treating

Diagnose before treating

You will have internalised that 90% of decision errors are errors of perception and not reason. You will recognise the value of spending longer in diagnosis mode. In particular, when working on complex challenges you will appreciate the principal tool to always diagnose before treating.

Where would diagnosing before treating help?

During this discussion with your peers you will explore the ways in which you can each instantly apply expertise.

3. Effective collaboration

Overcome the key challenge: **We observe selectively**

"We believe we perceive accurately and if reality is obvious to us it is to others. Reflection reveals none of this is true"¹

We do not perceive reality

How teams overcome errors of perception

Since we do not perceive reality, no two people see the same complex situation the same way. 'Collective intelligence' can be unlocked by combining multiple vantage points so groups should outperform on complex tasks.

How groups decide

While in theory groups should make better judgements than individuals, in practice unless we avoid easy-to-fall-into collaboration traps, we are easy prey to misunderstanding, circular arguments and ineffective outcomes.

How do we currently lead group discussions?

To prepare for the remainder of this session, you will reflect with your peers how you currently lead group discussions in your work and what the insights from the first part of the session mean for your team leadership.

Three steps to collective intelligence

Three steps to harnessing collective intelligence

You will acquire a light touch framework of 3 very simple steps to harness collective intelligence.

Do we currently harness collective intelligence?

Building on your earlier discussion with peers you now reflect on how you currently harness collective intelligence.

Where would healthy conversations be helpful?

You have the opportunity to discuss where the heavyweight healthy conversation framework might help you

Psychological safety

Psychological safety

Complex situations involve uncertainty, so we fear looking foolish as we share perspectives to achieve collective intelligence. Psychological safety is the belief that the work environment is safe for interpersonal risk taking.²

Where could we develop psychological safety?

You explore with peers where you could develop psychological safety in the teams you influence.

15 mins

4. Healthy challenge & thinking strategically

Overcome the key challenge: **We oversimplify**

“When faced with a difficult question, we often answer an easier one, usually without noticing the substitution” ¹

Thinking strategically

The essence of strategy

You will acquire a powerful understanding of the essence of strategy: judging the critical factors and the biggest challenges in a complex situation prior to deciding how to overcome the challenges to move closer to your goal.

Strategic framework

The strategic framework brings together all the learning to date in the form of a simple, four-step framework. This too makes it easier to reliably and repeatedly judge what is true before deciding what to do.

Where could we use the strategic framework?

Alumni of ICMIF's face to face workshops frequently refer to the impact of the strategic framework. In this discussion you have the opportunity to explore with peers how to make the framework work for you.

Healthy challenge

The power of the outside view

Healthy challenges are essential because our energy saving brains often snap to our first idea despite disconfirming evidence. A powerful antidote is to invite an outside view. In this respect your group will be invaluable.

Three simple challenges

You will acquire three simple challenges that overcome human nature to prematurely jump into treatment mode.

The Pre-mortem

The Pre-mortem

Gary Klein's Pre-mortem uses the essence of Charlie Munger's saying, "I want to know where I'm going to die so that I never have to go there," to transform planning and execution in complex situations

Pre-mortem practice

You will work with your peers to practice applying a pre-mortem to an easy to understand case.

Where would Pre-mortems be helpful?

Having immersed yourself in the Pre-mortem you take a step back to consider where the tool could help you.

5. Working across cultures

Overcome the key challenge: **Culture eats strategy for breakfast**

“The way we see the world seems so obvious it is difficult to imagine others might do things differently”¹

Why culture eats strategy for breakfast

Why culture eats strategy for breakfast

You will learn how our habitual patterns of behaviour, forged by our experiences, impact what we see, what we think and what we do so that our automatic cultural behaviour is stronger than our efforts to adopt a new strategy.

How cultures form

The mental models of human behaviour will drive a deeper understanding of how cultures form and why they vary.

Working across cultures

The Culture Map

“Just as fish don’t know they’re in water, people often find it difficult to see and recognise their habitual ways of working until they start comparing them with others.”² Building on brief preparation regarding the culture where you work, you will contrast your approach with peers to recognise your default responses within a coherent model.

What cultural traps might affect our collaboration?

Your first discussion will reveal the specific decision traps that could hinder the future collaboration of your group.

What does this mean for our collaboration?

This provides the platform for your team to explore how you can work effectively together across your cultures.

Building a learning system

Build a learning system

Your actions should move you closer to your goal and also improve your approach. While the second purpose is the more important in the long-term, “most people focus more on the first purpose, which is a big mistake.”³ You will learn the essence of systematically building a learning system to compound your successes.

How systematic is our learning from experience?

You will explore with peers how systematic the learning from experience is where you work.

Preparing for session 5
Applying the Culture Map
to where you work

6. Preparing for action

Overcome the key challenge: **Habits drive behaviour**

"To change behaviour focus on the day to day process, rather than the outcomes" ¹

Preparing for session 6

Review all learning

The time between the fifth and final sessions is the perfect opportunity to review all your learning to date.

Identifying your focus

You will increase the return on your time invested by identifying the new behaviours on which you will focus.

Preparing for action

Which behaviours will I change and how will life be better when I change them?

You will prepare a personal learning plan to make applying your learning easier by building on research into successful habitual change. You will be encouraged to work with a partner for mutual support.

How habits and willpower work

You will acquire the mental models of how habits and willpower work. Reference will be made to ongoing clinical research into habit and hence the essential steps that will translate your learning into durable automatic actions.

Implementation plan and habit canvas

You will sharpen your understanding of how habits are made and broken using a habit canvas. In particular, you will be introduced to the implementation plan that transforms the success rate of developing new behaviours.

How will I build a habit to make change easier?

You will design personal implementation plans to build your desired habits and so make change easier

How will we support each other as partners?

You will plan how to overcome the inevitable buffeting at work while your chosen behaviours become automatic.

Supporting each other

How will our group collaborate and support each other?

You will conclude the formal part of the course by planning how you will collaborate and support each other. The course is just the prelude to making complexity feel easier as you tackle it with friends and ICMIF's network.

ICMIF: 320,000 global peers to help you

The global network for mutual and cooperative insurers

You may already know that **your organisation is an active member** of the International Cooperative and Mutual Insurance Federation (ICMIF).

ICMIF is the **world's only global network for the cooperative and mutual insurance sector**.

With 320,000 people employed in 200+ members spread across 70 countries, the ICMIF network offers you a unique opportunity to explore live situations with peers from around the globe. As one ICMIF member CEO put it “we are in direct competition with global players, but do not have access to global knowledge.” ICMIF membership brings this global knowledge to you and by participating in this course you will start to build your own global network.

Whatever issue you may be facing, it is likely that **within the ICMIF network there are others who are in a similar situation**, perhaps even having recently made progress in ways that would be valuable to you and which they may be willing to share through an introduction facilitated by ICMIF.

About ICMIF

ICMIF's **purpose is to help member organisations** achieve their strategic goals and sustainably grow in their markets by leveraging the knowledge, competencies and experience of ICMIF's global network and representing the sector's interests to key stakeholders.

ICMIF is **owned, governed and actively guided by its member organisations** so, just like a good cooperative or mutual, it can gauge and respond to its members' changing needs and expectations. It exists to help strengthen its members' competitiveness by delivering unique market information, networking opportunities, leadership development programmes and global advocacy.

Trust and mutual support are the hallmarks of the relationships that exist between ICMIF members; they enable meaningful exchanges which range from strategic learning and staff development to benchmarking and joint business ventures.

ICMIF member organisations are **collaborative by nature** and typically outperform their national markets¹.

For more information and the latest developments regarding how other cooperative and mutual insurers are responding to a changing world see icmif.org
